MESSAGE FROM THE CEO

PEOPLE MATTER

Want a great life? Surround yourself with great people!

Surround yourself with people that lift you up and will help you level up. 5 signs I look for that will tell me someone will be successful:

1. They are amazing with people.
2. They listen more than speak.
3. They are curious.
4. They focus on solutions.
5. They invest in themselves.

BUSINESS BUILDING TIP

APPEALING TO THE MASSES

Part of building your FITTEAM business is understanding what approach you will take when marketing yourself and how you intend to appeal to the masses aka the most people possible! We all know the world is full of diversity and this is reflected through social media, where people of all backgrounds and ways of life share their opinions, thoughts and ideas. Because of this, it can be challenging to make your business appeal to everyone, but there are a few simple tricks that you can do to make your social media posts more accessible to a wider audience.

Clarity

Clearly convey your message aesthetically; try to simplify your text to make it more readable, always try to add a visual, if you have the option to change your font do so but avoid anything in a script or cursive patterns because that isn't as easy to read. In addition, try stick to your FITTEAM business principals such as; health, wellness, family, purpose, helping, charity... basically the universal things we all want while try to stay away from polarizing topics.

Variety

Sometimes, when you have to write multiple posts on a regular basis, you might fall into the rut of doing the same thing over and over. It's so important that you put effort into changing up your regular pattern every once in a while. It's true that audiences like consistency, but to stay engaging you need to be intentional about what you repeat and make everything else fresh and new.

Accessibility

Lastly, to appeal to as wide an audience as possible, you should think about making your posts accessible to everyone. Consider adding captions to all of your videos and adjusting your text so that it is easy to read. Research new platforms that maybe you haven't used yet, this will allow you to expand your reach to a new and/or different audience. Try going off social media and connecting with people directly via phone, zoom or email. Making yourself accessible will allow for relationships to flourish.
